

Jordan Daulton  
Plant Superintendent  
Great Northern

Great Northern is a leading developer and manufacturer of creative solutions for packaging, shipping, merchandising and distributing products for industrial, commercial and retail markets. Great Northern is headquartered in Appleton, Wisconsin, and has operations in five states.

**Please describe what Tegrete does for your business (type of services, responding to problems/service calls, after hours, etc.).**

The Tegrete team assists us with providing a clean and safe environment for our employees.

**Where does Tegrete add the greatest value? (Consider inspections, project management service provider management, etc. Also consider what it was like before Tegrete Vs. after Tegrete)**

The Tegrete team is very responsive and quick to provide effective solutions to our business needs. They allow us to confidently bring in customers to tour our facility, knowing that it is kept in a clean state.

**What would you tell someone who's considering doing business with Tegrete?**

I would highly recommend the Tegrete team to other customers. They are professional and quickly address concerns.

**How has your business and or your role been impacted since starting with Tegrete (e.g. time savings, cost reduction)**

My job is made much easier when I know that our employees are happy and satisfied with the facility conditions that they work in each day. We take employee satisfaction very seriously and having a partner that we can count on makes it much easier to meet employees' expectations.

**Is there anything we could do better or improve upon?**

Overall, I think Tegrete does a great job providing solutions. When issues or concerns arise, the Tegrete management team is on-site, working alongside us to address the situation.

**On a scale of one (no chance) to ten (definitely), how likely are you to recommend Tegrete to others? Comments?**
